YASHWANT KUMAAR

OBJECTIVE

Seeking a challenging role in a renowned organization where I can continuously learn new skills, expand my knowledge, and leverage my expertise to drive innovation.

PROJECTS

FACE RECOGNITION

Python Face Recognition: Utilizing packages for efficient and accurate facial identification.

RESTAURANT

Built a responsive restaurant app with HTML, CSS and React featuring dynamic menus and streamlined order management.

DEEP FAKE

Developed a deepfake detection system using ResNeXt and LSTM for accurate video authenticity verification. Built with Flask to provide an efficient and user-friendly analysis interface.

ACCOMPLISHMENT

I secured second place in a mini-project contest in my college, demonstrating my innovative problem-solving skills during this competitive event.

CERTIFICATE

Python

C Program

Web development

INTERSHIP

CODEBLIND IN-PLANT TRAINING

MIT-programmable logic controller
